

DRIVING THE FUTURE

MAKE YOUR NEXT
MOVE WITH US

SEW EURODRIVE

SEW EURODRIVE is a global player that keeps things moving with pioneering technologies and tailored solutions in the fields of drive and automation technology. We owe our success worldwide and across many industries to over 22,000 employees in 58 countries.

Our production facility in Dubai, United Arab Emirates is looking for a **Industrial Application Engineer**

As a member of SEW-EURODRIVE, you will benefit from excellent career prospects in an exciting technological growth industry. Work independently to provide our customers with optimal solutions and continue developing your skills.

Your tasks

- Project supervision, configuration, programming, and integration of SEW automation systems.
- Perform tests, in depth troubleshooting and resolve technical issues to ensure optimal performance and client satisfaction.
- Coordinate with project managers and clients to ensure project requirements are met.
- Generate detailed post-job reports to document project outcomes and areas for improvement.
- Define project and system requirements and project scope in collaboration with clients and sales team.
- Design systems to meet client needs, timelines, and budget constraints.
- Assist and support colleagues with their technical queries.
- Provide online technical support through phone calls and remote desktop.
- Provide practical training on system operation and maintenance to both clients and team members.
- Assembly of SEW-EURODRIVE electronics as needed and resolve any assembly issues to minimize production downtime.

What we offer

- Attractive salary package including housing and transportation allowances
- Yearly plane ticket to home country and health insurance

Sounds interesting?

We look forward to your application!

Your qualifications

- Education: Bachelor's degree in electrical engineering or an equivalent field.
- Experience: Minimum of 5 years of experience in a similar role, preferably in automation and electrical systems.
- Product Knowledge: Familiarity with SEW-EURODRIVE products is an advantage.
- Problem-Solving: Strong ability to troubleshoot and resolve issues autonomously.
- Languages: Fluent in English. Knowledge of Arabic language is an advantage.
- Personal Traits: Result-oriented and capable of effective teamwork.
- Technical Skills: Solid understanding of machinery and automation systems.
- Travel: Willing to travel for business trips as needed.
- License: Valid UAE driving license is an advantage.
