

**Extended warranty for gearmotors  
Extra 12 months for 100% confidence**

**OPTIONAL**

A red SEW gearmotor is displayed on a grey rectangular pedestal. The gearmotor is a compact, industrial-grade unit with a red painted metal housing. It features a prominent output shaft on the left side and a circular terminal box on the right. The entire unit is enclosed within a red circular outline. To the left of the gearmotor, a white cross-shaped graphic is overlaid, containing the word 'OPTIONAL' in red capital letters.

## Top drive + PREMIUM protection = extended warranty

What if, in addition to the applicable statutory warranty, you were to receive an additional 12 months and were therefore covered by an extended warranty?

Not a problem – this is now an option for gearmotors from SEW-EURODRIVE. A further 12-month warranty is possible on top of the applicable statutory warranty for new drives from SEW-EURODRIVE. The only condition is that you take out our PREMIUM protection option on your purchase.

### Your benefits:

- You are also covered for longer waiting times or storage times, for example until your drive is installed and started up.
- The quality of the components you receive can make all the difference when it comes to optimizing the reliability of a production plant.

### The optional\* PREMIUM protection package for gearmotors from SEW-EURODRIVE covers:

- Premium Sine Seal: oil seal from SEW-EURODRIVE with sinusoidal sealing lip on the motor
  - Premium fluorocarbon rubber oil seal on the gear unit (output shaft)
  - Premium gear oil: SEW GearOil for improved gear unit performance
  - Premium extended warranty with additional 12-month warranty on top of the statutory warranty
- \* Option only available as extension to statutory warranty period – no extension of other contractual agreements possible.

Premium Sine Seal oil seal

Premium fluorocarbon rubber oil seal

Premium lubricant
