

A large, bright orange industrial motor is the central focus of the image. It is mounted on a metal structure and has a nameplate with technical specifications. The background is a blurred industrial factory floor with overhead lights and structural beams. The text 'KEEPING YOU MOVING IS WHAT DRIVES US' is overlaid in large white letters across the middle of the image. A solid red vertical bar is on the right side.

**KEEPING YOU MOVING
IS WHAT DRIVES US**

Our guiding principle since 1931

"People don't want products – they want solutions."

Ernst Blickle

Son-in-law of the founder of
Süddeutsche Elektromotoren-Werke(SEW)

Master plan for Graben-Neudorf
Opening Hall South and construction start
hall North

Industry 4.0 arrives at
Graben-Neudorf plant

Company's own **Chinese
subsidiary** founded

Entry into **control technology**

First foreign company
in Haguenau, France

Industry know-how

Life cycle services

Industry 4.0

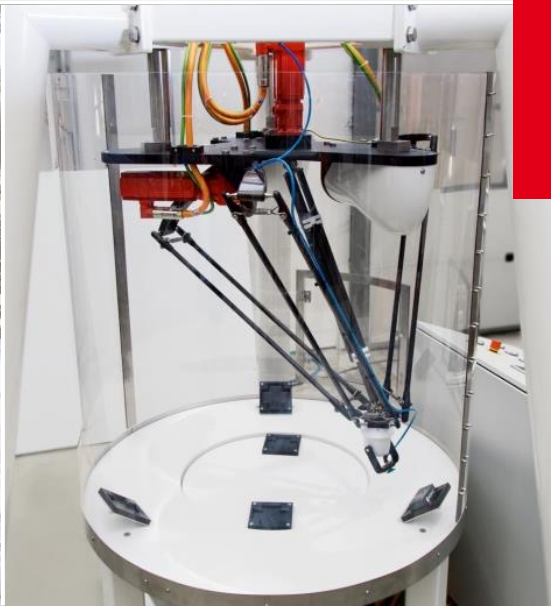

Think we have a large selection?

Individual products

Our portfolio is just as varied as the needs of our customers. We are happy to help you select and design your very own drive solution down to a batch size of 1.

- Standard gearmotors
- Decentralized technology
- Servo technology
- Industrial gear units
- Control technology
- Functional safety
- Software

Would you like to have just one contact?

Solutions

In that case, we can definitely help with our application packages and "presolved" automation modules.

- From axle to controller
- Intelligent simulation software
- Predefined application packages
- Customized system solutions
- High-torque industrial gear unit solutions
- Complete drive automation from a single supplier

This also gives you a better supplier overview.

Are you embarking on a smart future?

Industry 4.0

So are we. Our networked showcase factory based on Lean Smart Factory principles has been operating at our lead plant in Graben-Neudorf for a number of years now. It benefits from:

- Efficient, flexible and motivating workflows geared toward value creation
- Interdisciplinary, intelligent automation solutions
- Seminars and training

How can we work with you to ensure success?

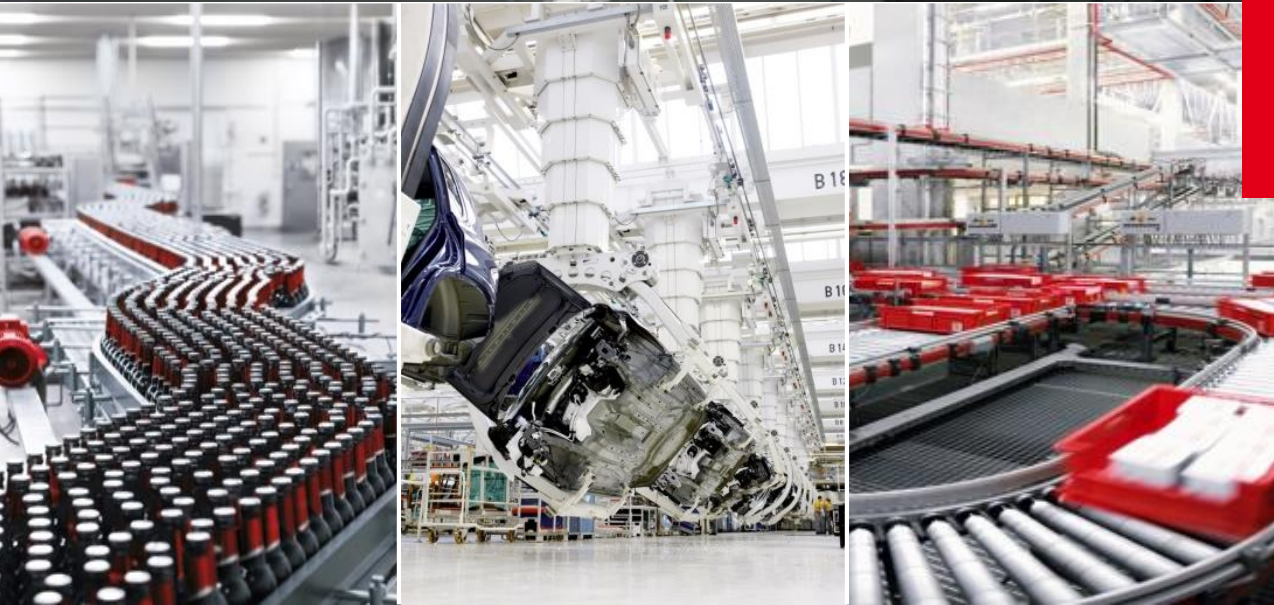

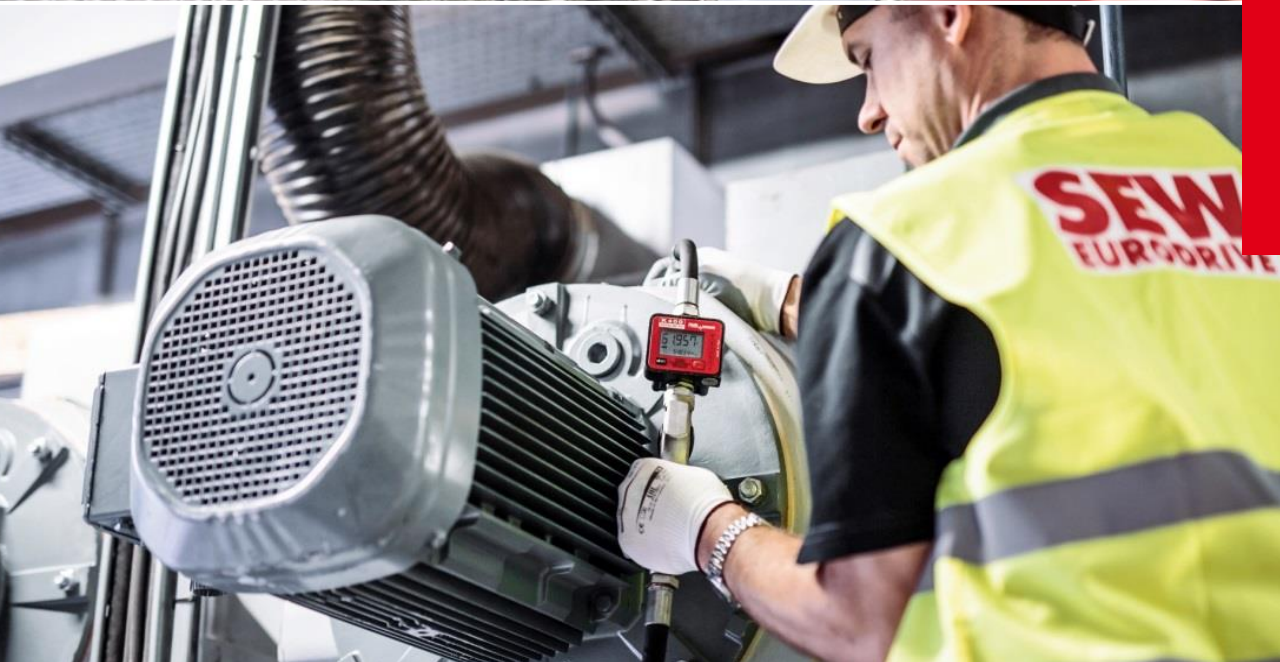

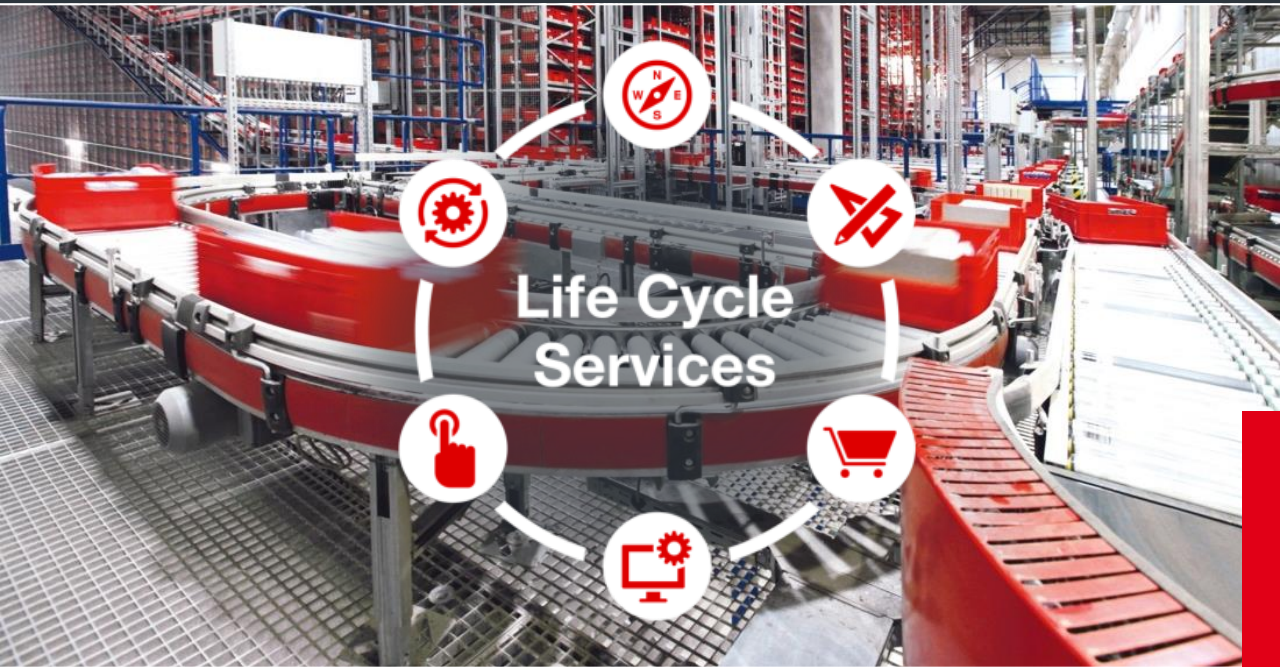

Are 90 years of industry experience sufficient?

Industry know-how

We convey, we move, we pulverize, we saw, we perfect and we drive industry – worldwide. Rely on almost 90 years of industry experience, including in your particular sector.

- Automotive industry
- Beverages and filling liquids
- Food and packaging of solids
- Baggage handling
- Transport and logistics
- Building materials and glass
- Cement
- Timber industry
- Mining
- Packaging logistics
- Cargo – ports/airports/train stations
- Sewage treatment works
- And many others

Do you have life insurance?

Life cycle services

When we hear the term service, we immediately think of repairs or maintenance work. Nowadays, though, service involves much more than just that. Our life cycle services are rather like a life insurance policy for your systems.

Our 24-hour service hotline covers everything from personal support in project planning and design to help in emergencies. Rest assured, our life cycle service is your complete no-worries package.

This is what we mean by customer proximity

- 17 production plants
- 85 Drive Technology Centers
- > 200 sales companies
not all are shown on the map
- 38 partners

> 19.000 employees

52 countries

EUR >3.1 billion in sales (FY 2021)

This is what we call partnership

from a batch size of **1**

> 3.000
patents granted

EUR 250 to **EUR 10 million**
order value range

~ 110.000
active customers

~ 230.000
garmotors/month

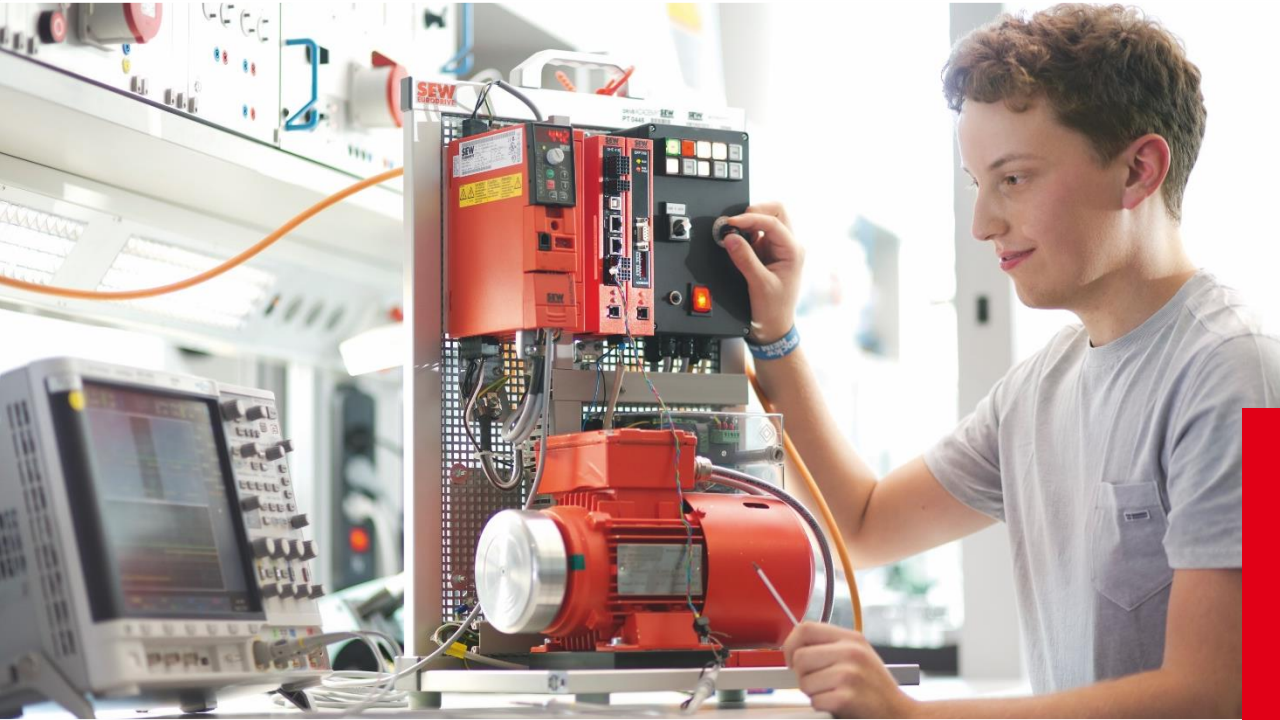

~ 20 million
parts/month at **> 100** sites

525.600 minutes
per year during which you can
contact us

~ 55.000
Frequency inverter/month

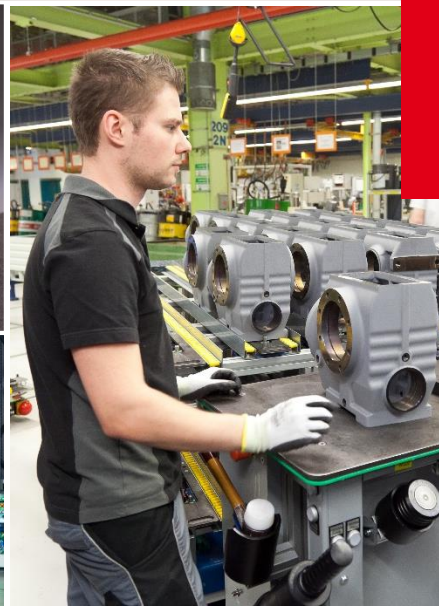

What you can expect from us

People | When you work with us, you can expect to find a team of qualified, motivated people eager to take on your challenges. That's why we invest in the training and further education of our most valuable asset. In fact, around 250 young people in total are currently training with us.

Technology | To help you boost your performance in your market, we optimize our products and develop new solutions, always incorporating the latest findings.

Research | To safeguard your competitive edge in the future, we conduct research into technologies and solutions to ensure you always keep pace with the state of the art.

Production | To ensure we can meet your requirements faster and more effectively, we're constantly developing our production concepts and adopting the latest approaches in our new and existing plants around the world.
