

Operation

Quick Check

Your requirements

- **Improved system availability** – preventive inspection of drive components in an existing system
- **Enhanced operational safety** – early detection of damage and specific maintenance recommendations
- **Lower maintenance costs** and compliance with internal budget requirements
- **Compliance with standards and internal requirements**, for example by providing evidence and documentation of maintenance measures during audits

Our services

- Checking the installation position of the drive technology (comparison of actual and target position)
- Inspection for oil leaks and of all external sealing points on the gear unit, for example oil seals
- Oil level check (on basis of actual mounting position)
- Check of the degree of pollution of the gear oils used
- Inspection of gear unit and motor bearings for running noises
- Inspection of the terminal box (state, ingress of oil/water, seals, screw fittings) and the wiring on the terminal board
- Brake check – mechanical/electrical function and brake wear
- Inspection for external, superficial damage and for correct installation of mounted drive electronics (e.g. MOVIMOT®, MOVIGEAR®) and servo drive technology (including motor feedback systems)
- Inspection of mount-on components (e.g. belt pulleys, sprockets, couplings, etc.) for superficial damage, missing or improper protective covers, oil leakages

Your benefits

- **12-month functional SEW warranty** on all drive components checked and found to be OK (excluding sealing elements)
- **Comprehensive documentation** in the form of a Quick Check service report, including recommended courses of action
- **Transparency thanks to clear identification** of the drive technology checked and reminder following expiry of liability
- **Performing Quick Checks** for both SEW-EURODRIVE and comparable third-party products
- **Consulting and scheduling** of identified essential maintenance measures for the drive technology
- **Maintenance measures can be planned** thanks to regular Quick Checks

These figures speak for themselves

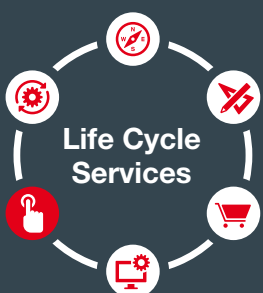

Whatever your location in Germany, we're never far away. Our expertise and experience maximize your system availability.
