

**NEW**

**Your access to the digital services:**

Just scan the QR code from the product  
and see for yourself

## The digital services at a glance:

### What we offer:

- Access to the technical data of the product
- Access to product-specific documentation and manuals
- Mounting position check using a CAD image
- Troubleshooting assistance
- Support in selecting spare parts
- Submission of service requests
- Contact with SEW-EURODRIVE's 24-hour service
- Predictive maintenance (in the pipeline)
- Condition monitoring (in the pipeline)
- Startup assistance (in the pipeline)

### Your added values:

- Instant access to digital services ranging from startup to maintenance and repair.
- Simple installation and startup, rapid access to product data, documentation and the CAD image of the product for checking its mounting position.
- Rapid assistance in the event of failures thanks to error analysis and the possibility of submitting a service request or spare part order directly – around the clock.
- More services are in the pipeline: Predictive maintenance, condition monitoring and startup assistance. Are you ready for the future?
