Use of cookies

1. SEW-EURODRIVE cookies

When you visit one of our websites, some data called "cookie" is saved on your computer so that your computer is automatically recognized during your next visit. Cookies allow us to tailor the viewing preferences and functions of our website to your interests or to save your password so that you do not have to re-enter your password each time you visit the website. If you do not want us to recognize your computer, you can configure your internet browser to delete cookies from your hard drive, block cookies, or give a warning message before saving the cookie. However, this means that personalized functions and features on our website will no longer be available.

2. Third party cookies

Some websites and applications have content and services from other providers that use their own cookies and active components. SEW-EURODRIVE has no influence on how these providers process personal information. Please refer to the websites of these providers for their data processing practices.

Facebook

Our websites use the functions of the Facebook.com social network ("plug-ins") operated by Facebook Inc., Palo Alto, California, USA. Plug-ins are activated when you click on the corresponding button. By activating this plug-in, you are connected to Facebook and you consent to the transfer of your data to Facebook. If you are logged in to Facebook, Facebook may transfer your visits to our website to your Facebook account. If you click the button, relevant information will be transferred directly to Facebook from your browser and saved there. You can access the purpose and scope of Facebook's data collection, learn about how Facebook will process and use your data at a later time, and how to make adjustments to protect your rights and privacy, by reading Facebook's privacy policy. If you do not want Facebook to transfer your visits to our website to your Facebook account, please sign out of your Facebook account.

Twitter

Our websites use the functions of the Twitter social network ("plug-ins") operated by Twitter Inc., San Francisco, USA. Plug-ins are activated when you click on the corresponding button. By activating this plug-in, you are connected to Twitter and you consent to the transfer of your data to Twitter. If you are signed in to Twitter, Twitter can transfer your visits to our website to your Twitter account. If you click the button, relevant information will be transferred directly to Twitter from your browser and saved there. You can access the purpose and scope of Twitter's data collection, learn about how Facebook will process and use your data at a later time, and how to make adjustments to protect your rights and privacy, by reading Twitter's privacy policy.

YouTube

Our websites use the YouTube video platform operated by YouTube LLC, San Bruno, USA. YouTube is a platform that allows playback of audio and video files. Some of our websites contain embedded YouTube videos. When you enter this type of website, the embedded YouTube video player connects with YouTube to transfer the video or audio file. When connecting to YouTube, data is transferred to YouTube. You can access the purpose and scope of YouTube's data collection, learn about how Facebook will process and use your data at a later time, and how to make adjustments to protect your rights and privacy, by reading YouTube's privacy policy.

XING

Our websites use the functions of the Xing social network ("plug-ins") operated by XING AG, Hamburg, Germany. XING is a business network that allows its members to manage their contacts and find new contacts. When you enter these websites, a direct connection between your browser and the XING server is provided through a plug-in. In other words, XING receives information that you are visiting our websites through your IP address. If you're signed in to your XING account, you can match the content from our website to your XING profile. Then, XING may transfer your visits to our website to your XING account. You can access the purpose and scope of XING's data collection, learn about how Facebook will process and use your data at a later time, and how to make adjustments to protect your rights and privacy, by reading XING's privacy policy.
